

## **RISK ASSESSMENT**

PWA's risk assessment process covers children and staff and includes:

- The identification of pupils with specific conditions e.g. asthma, allergies
- Checking for hazards and risks in the hall/studios and foyer
- Deciding which areas need attention
- Developing an action plan which specifies the action required, the time scales for action, the person responsible for the action and any additional resources required
- Maintaining/reviewing list of issues which is checked before every lesson begins

## **INSURANCE COVER**

PWA has public liability insurance – a copy of the certificate is available on request.
